## PROFESSIONAL SUMMARY

Full Stack Software Engineer with 5 years of experience designing, developing, testing, and deploying scalable web and software applications. Experienced in frontend and backend development, API development, SQL and NoSQL databases, authentication and authorization, cloud application development, AI integration using LLM APIs and cloud AI services, and software architecture. Proficient in modern programming languages, frameworks, cloud platforms (AWS, Microsoft Azure, and Google Cloud Platform), DevOps practices, CI/CD pipelines, Git, GitHub, and containerized application deployment. Experienced in Agile software development methodologies with strong problem-solving and analytical skills and a commitment to delivering secure, maintainable, and high-quality software solutions.

## TECHNICAL STACK

- **Languages:** Java, JavaScript (ES6+), TypeScript, Python, C#, PHP
- **Frontend:** HTML5, CSS3, React, Angular, Vue.js, Next.js, Tailwind CSS, Redux Toolkit, Zustand
- **Backend:** Node.js, Spring Boot, Django, FastAPI, ASP.NET Core, Laravel
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Oracle
- **APIs & Architecture:** REST, GraphQL, OpenAPI, Microservices, Clean Architecture, Domain-Driven Design
- **CLOUD & Deployment Platforms:** AWS (EC2, S3), Microsoft Azure, GCP, Vercel
- **AI Integration:** LLM APIs, Prompt Engineering, AI APIs, Cloud AI Services, AI Agent Development
- **CI/CD & DevOps:** CI/CD Pipelines, Git, GitHub, GitHub Actions, GitLab, Jenkins, Docker
- **Security:** JWT, OAuth 2.0
- **Testing:** Jest, Playwright
- **Messaging, Search & Logging:** Apache Kafka, RabbitMQ, Elasticsearch
- **Monitoring & Observability:** Prometheus, Grafana
- **CMS & E-commerce:** WordPress, WooCommerce
- **Operating Systems:** Linux
- **UI/UX:** Figma

## PROFESSIONAL EXPERIENCE

### Full Stack Developer | MOMENTUM MEDIA, QATAR

2026-Present

- Developed 8+ scalable applications using React.js, Next.js, Node.js, Java, and Python, delivering maintainable full-stack solutions.
- Built 25+ RESTful APIs with authentication, authorization, and third-party integrations for secure application workflows.
- Containerized 8+ applications with Docker and implemented CI/CD pipelines, reducing deployment time by 30% and configuration issues by 20%.
- Applied DevOps practices and optimized APIs, database queries, and application performance, reducing manual deployments by 25% and improving response times by 15–20%.
- Deployed and maintained cloud-based applications while working in Agile/Scrum teams, contributing to testing, code reviews, debugging, and continuous delivery.

### Project Coordinator | SYNTRICO PVT LTD , ISLAMABAD

2024-2026

- Coordinated 4 concurrent software projects, managing 100+ tasks and providing weekly stakeholder updates.
- Translated 8+ client requirements into user stories, reducing requirement clarification by 20%.
- Supported Agile sprint planning for a 6-member development team, managing task boards and 30+ action items.
- Coordinated 200+ QA test cases and bug tracking, contributing to a 15% reduction in post-release issues across 3 projects.
- Managed deployment readiness for 10+ Vercel releases and maintained 50+ project documents, including requirements, meeting minutes and status reports.

- Developed 6+ full-stack web applications using React, Next.js, Node.js, and MongoDB for SME clients across retail, logistics, and services.
- Built and integrated 20+ RESTful APIs, implemented JWT authentication, and enabled secure third-party integrations, including email and file storage.
- Converted 10+ Figma designs into responsive, cross-browser interfaces using Tailwind CSS and Bootstrap.
- Developed Jest unit tests covering 60%+ of critical business logic, reducing regression bugs by 25%.
- Deployed 4+ applications to Vercel with AWS S3 integration and collaborated with a 4-member team using Git/GitHub, reviewing 30+ pull requests.

## WordPress Developer | MAXXPACE SOLUTIONS, ISLAMABAD

2022-2023

- Developed custom WordPress themes and plugins using PHP, JavaScript, and CSS3 for 12+ client websites across 5 industries.
- Built responsive, cross-browser interfaces using Bootstrap, reducing display issues by 40%.
- Integrated WooCommerce with custom product pages and checkout workflows for 3 client websites, supporting 100+ orders in the first month.
- Improved website performance by 35% through caching, image optimization, and database query optimization.
- Managed deployment, hosting, and domain configuration for 12+ websites using Git and cPanel, maintaining 99%+ uptime.

## PROJECTS

### AI Resume Analyzer (ResumeAI)

**Technologies:** React.js, JavaScript, Node.js, Express.js, OpenAI API, MongoDB, PDF Parser, Git/GitHub

**GitHub:** <https://github.com/umarfarooq107/AI-Resume-Analyzer.git>

- Developed an AI-powered resume analysis platform that extracts and evaluates resume content from uploaded PDF files.
- Integrated OpenAI API to analyze skills, match resumes with job descriptions, and generate improvement suggestions.
- Built a full-stack application with React.js frontend, Node.js/Express.js backend, and MongoDB for data management.
- Implemented resume scoring and AI-based recommendations to improve candidate profiles.

### Project Management & Collaboration System (TaskFlow)

**Technologies:** React.js, JavaScript, Node.js, Express.js, MongoDB, Socket.IO, JWT Authentication, Git/GitHub

**GitHub:** <https://github.com/umarfarooq107/Management-System.git>

- Developed a full-stack project management platform using Node.js, Express.js, MongoDB, and JWT, enabling secure project, task, and team management.
- Implemented Kanban boards with drag-and-drop functionality and integrated Socket.IO for real-time notifications and collaboration.
- Built scalable backend services and responsive user interfaces, enhancing team productivity and project tracking.

### Real-Time Video Chat Application

**Technologies:** React.js, JavaScript, Node.js, Express.js, Socket.IO, WebRTC, HTML5, CSS3, Git/GitHub

**GitHub:** <https://github.com/umarfarooq107/video-chat-app>

- Developed a full-stack real-time video chat application with live video/audio communication and instant messaging.
- Built a responsive React.js frontend and integrated Node.js/Express.js backend with Socket.IO for real-time connectivity.
- Implemented WebRTC for peer-to-peer video communication and managed project version control using Git/GitHub.

## CERTIFICATIONS

- Oracle Certified Professional: Java SE Developer
- Azure Developer Associate (AZ-204)

## EDUCATION

**B.S. (HONS.) SOFTWARE ENGINEERING** | Foundation University School of Science and Technology, Islamabad
